

Cabernet Franc Venezia Giulia IGT

Bortoluzzi reds aim to stand out, made with integrity and the idea of highlighting the region's terroir and personality as well as the grapes themselves. The herbaceous character of this wine is indeed a nod to its typical characteristics. The grapes are harvested exclusively by hand and then fermented for about fifteen days before aging in barrique and tonneaux, both new and used (maximum third use), for about twelve months. It is then blended and left to rest in stainless steel tanks for about a month prior to bottling.
