

Greco di Tufo Tenute di Alta Villa DOCG

Made from pure Greco di Tufo grapes from very old vines (planted from 1956 to 1980) planted at Tenuta di Alta Villa. Harvested in early fall, the grapes are vinified and aged in stainless steel for about four months. Lovely mineral notes with a never-aggressive yet distinctive and persistent palate. Tenute di Altavilla extend 25 hectares (62 acres) in the province of Avellino, in the DOCG zones of Irpinia. The vineyards feature predominantly tuffaceous soil with a high percentage of clay, excellent exposure, beneficial diurnal temperature changes and steep slopes.

Wine exported to: Australia, Canada, Hong Kong
