

Antigua Monica di Sardegna DOC

From vineyards in Basso Sulcis (lower Sulcis); medium-textured soil with limestone, sand, and clay. The must ferments on the skins and goes through periodic pumpovers. The evolution of the wine then continues in cement tanks, where malolactic fermentation takes place and the sensory characteristics are softened. The wine ages six months in barrique (second use) and six months in bottle. Ruby red with purplish highlights. Good aromatic complexity, with notes of blackberry and blueberry on the nose. A pleasant palate, thanks to its good structure and velvetiness.

Wine exported to: Bermuda, USA, Canada, Australia
